Rizaldi Akbar

Fullstack Developer

Jakarta, Indonesia

Summary

I am a Fullstack Developer with hands-on experience in building web applications, APIs, and digital solutions that solve real business problems. With strong skills in JavaScript, Node.js, React, Express, and Prisma, I specialize in designing and developing scalable applications—both frontend and backend.

I am passionate about continuous learning, personal branding in IT, and sharing knowledge with others through content creation. My long-term vision is to contribute to impactful tech projects while also empowering others to learn programming and technology.
